Summary

B.Tech Computer Science & Engineering graduate with hands-on experience in Data Analytics and Business Intelligence through an Infosys Data Analytics internship. Skilled in Power BI, DAX, Power Query, SQL, Python, ETL, data modeling, data validation, and dashboard development. Experienced in transforming multi-source datasets, developing KPIs, and delivering interactive dashboards and data-driven insights.

Core Skills

Data Analytics & BI: Power BI, DAX, Power Query, Data Modeling, KPI Development, Data Visualization, Excel
Programming: Python, Pandas, NumPy, Matplotlib, Seaborn, Java
Databases: SQL, Microsoft SQL Server, JDBC, Query Optimization
Data Engineering: ETL Pipelines, Data Cleaning, Data Transformation, Data Validation, Star Schema
Reporting: Dashboard Development, Data Storytelling, PowerPoint
Tools: Git, Google Sheets

Experience

Data Analytics Intern (Virtual) — Infosys

- Worked on data validation, cleaning, transformation, and population for Urban Pulse, a smart-city mobility analytics platform integrating multimodal transportation data.
- Developed ETL workflows and a star-schema data model to organize multi-source transit data for analytics and reporting.
- Built interactive Power BI dashboards and geospatial visualizations using KPIs to monitor transit performance.
- Used SQL and Python to analyze datasets, identify patterns, and communicate data-driven insights through reports and presentations.

BHEL Vocational Training — Bharat Heavy Electricals Limited

- Gained hands-on exposure to Oracle and MySQL databases and wrote SQL queries for data retrieval and reporting.
- Developed frontend components using HTML, CSS, and JavaScript for user-facing application interfaces.
- Debugged database connectivity issues and supported data-related troubleshooting in enterprise systems.

Projects

Real Estate Data Analysis — MySQL · Power BI · Excel

- Cleaned, validated, and standardized real estate data using Excel and MySQL for reliable reporting.
- Developed SQL queries to analyze category-wise, region-wise, sales, and profitability trends.
- Built interactive Power BI dashboards to monitor key metrics and communicate data-driven findings through clear reports.

AI-Powered Modular ERP System — React · TypeScript · Node.js · Firebase · Gemini AI

- Built a full-stack ERP system integrating Google Gemini AI for automated business document generation and insight reports.
- Implemented data handling and API integrations to support reliable information flow across ERP modules.

Railway Ticket Management System — Java · JDBC · MySQL

- Developed a console-based application with a modular, OOP-based design to manage and retrieve railway ticket data using SQL queries and JDBC.

Education

Lakshmi Narain College of Technology, Bhopal

B.Tech in Computer Science & Engineering – IoT | CGPA: 7.53

2022 – 2026

Subhash Govt. Higher Secondary School, Bhopal

Higher Secondary Education — 85.2%

2021 – 2022

Certifications

- Java Programming — Sheryians Coding School
- Software Engineering and Agile Software Development — Infosys

Achievements

- Robo Race Winner — NRI College, Bhopal
- Solved 150+ problems on LeetCode, strengthening analytical and debugging skills
